SUMMARY

A motivated and creative web developer with a strong foundation in HTML, CSS, JavaScript, and React, combined with a flair for graphic design. Adept at building responsive, user-friendly websites and applications, I bring a unique blend of technical skills and design sensibility to every project. Eager to learn, grow, and contribute to innovative development teams, with a keen eye for detail and a passion for both code and aesthetics.

WORK EXPERIENCE

Web Developer Intern

April 2024 - July 2024

As a Web Developer Intern at Oasis Infobyte, I focused on developing dynamic and responsive web applications using HTML, CSS, and JavaScript. I worked on real projects, refining my skills in front-end development and gaining valuable experience in solving practical coding challenges.

Graphic Designer

March 2023 - March 2024

During my internship at Ekomart as a graphic designer, I created visually appealing graphics for marketing materials, including social media posts, banners, and promotional content. I collaborated with the marketing team to enhance brand identity and drive engagement through compelling designs.

PROJECTS

Weather App

[Link to GitHub](#)

I created a weather website that provides real-time weather updates and forecasts using HTML, CSS, and JavaScript. The site features an intuitive interface and dynamic data retrieval from a weather API, allowing users to easily check conditions for any location.

Calculator

[Link to GitHub](#)

I developed a responsive calculator website with dual-mode functionality, allowing users to switch between dark and light themes. Built with HTML, CSS, and JavaScript, the site offers a clean, interactive design and performs real-time calculations efficiently.

TIC TAC TOE

[Link to GitHub](#)

I created a Tic Tac Toe game using Python, featuring a simple command-line interface for player interaction. The game includes logic for determining the winner and allows users to play against each other in a fun, engaging way.

EDUCATION

- 2022 - present Bachelor of Computer Applications at **IMS, Ghaziabad**
- 2021 - 2022 Class 12th CBSE (Commerce) (81.2%)

SKILLS

- Languages HTML, CSS, JavaScript, Python, C++, Wordpress
- Tools & Softwares Visual Studio Code, Jupyter, Figma, Adobe Photoshop
- OS Windows, Ubuntu(Linux)
